

```
main(int argc, char *argv[])
{
    int c;

    printf("Number of command line arguments passed: %d\n", argc);

    for ( c = 0 ; c < argc ; c++)
        printf("%d. Command line argument passed is %s\n", c+1, argv[c]);

    return 0;
}
```
